

2016

Summer Social Learning Experience

HIGHLIGHTS

- Small group instruction with our highly trained staff
- Dynamic teaching through age-related design thinking projects, traditional summer activities and field trips—lunch included
- Focus on social thinking concepts including initiation, social attention, emotional regulation, seeing the big picture, perspective-taking, and abstract thinking
- Students will practice sharing ideas, collaborative decision-making, and problem solving through design projects and dynamic activities
- Curriculum based on Common Core State Standards combining English Language Arts and Science
